Nautel NV Series V2.8.6 Release Notes

On March 8, 2011 Nautel released version 2.8.6

If you have been advised by our customer service department to upgrade or if you have experienced problems addressed in this software release please proceed with the download.

To upgrade to software version 2.8.6, use information sheet IS09004E, assuming you already have a minimum 1.x or 2.x software in place.

The most significant improvement with this version includes:

- Resolves issue where RF power modules were being inhibited at turn on in HD modes intermittently and not displaying any alarms.
