3.7 SOFTWARE UPGRADE

When necessary, upgrade the Site Sentinel 16's software as follows:

(a) Connect to the Site Sentinel web interface as detailed in the "Web Setup and Operation" section of the Broadcast Tools Site Sentinel 16 Installation and Operation Manual. The Site Sentinel 16 login page should be displayed (see Figure 3-4).

BROADCAST. t o o l s site Sentinel® 16	Login	
	Time/Date 16:07:48 2/8/2011 Site ID SITE_ID Enter Login Information: Ucername Show Password Summ	

Figure 3-4 Site Sentinel 16 Login Page

(b) Enter the Username (default = admin) and Password (default = 1234) and click **SUBMIT**. The Monitor/Control page should be displayed (see Figure 3-5).

CAUTION

If you have changed any settings (transfer thresholds, network settings, etc.) on the Site Sentinel 16 since receiving the system, there is no need to upgrade the Settings file in paragraph 3.7.1. Doing so will overwrite your current settings.

3.7.1 Settings File

(a) Under the NAVIGATION section (top. left corner) of the Monitor/Control page (see Figure 3-5), select Email/Network Setup. The Email/Network Setup page (see Figure 3-6) will be displayed.

	⊟ Reboot ⊟ Alarms Cleared
Chassis Temp Format	* 4
(Save Settings) ((Send Test E-mail) (Clear Daily Logs)	Reboot Device (Reload Defaults) Send Daily Logs Browse

Figure 3-6 Email/Network Setup Page (lower section)

(b) Scroll to the bottom of the Email/Network Setup page and select Browse. Navigate to the applicable directory and select the appropriate SITESENTINEL16_MS_SETTINGS_x.x.bin upgrade file. With the proper file selected, click Import, then click OK on the window that opens. The web browser will reboot. Re-enter the Username and Password as in step (b).

3.7.2 Macros File

(a) Under the **NAVIGATION** section (top. left corner) of the Monitor/Control page (see Figure 3-5), select **Macros**. The Macros page (see Figure 3-7) will be displayed.

49						Delete			
50						Delete			
refresh save									
		Bro	wse_ No file selected. Impo	t					

Figure 3-7 Macros Page (lower section)

(b) Scroll to the bottom of the Macros page and select Browse. Navigate to the applicable directory and select the appropriate SITESENTINEL16_MS_MACROS_x.x.bin upgrade file. With the proper file selected, click Import, then click Refresh.
